

Programme Syllabus:

Master by Research in Media and Communication Science, 120 credits

General data

Code	TMMKA
Cycle	Second cycle
Ref no	MIUN 2009/97
Credits	120
Answerable department	Media and Communication Science
Answerable faculty	Faculty of Science, Technology and Media
Established	2019-10-28
Date of change	2022-08-11
Version valid from	2020-07-01

Aim

The objective of the programme is to provide an increased knowledge within the subject by planning and carrying out research projects in collaboration with other researchers and, if any, external partners.

Programme objectives

OUTCOMES ACCORDING TO THE HIGHER EDUCATION ORDINANCE FOR A MASTER OF ARTS/SCIENCE (120 CREDITS)

Knowledge and understanding

For a Master of Arts/Science (120 credits) the student shall have:

- demonstrated knowledge and understanding in the main field of study, including both broad knowledge of the field and a considerable degree of specialised knowledge in certain areas of the field as well as insight into current research and development work, and
- demonstrated specialised methodological knowledge in the main field of study.

Competence and skills

For a Master of Arts/Science (120 credits) the student shall have:

- demonstrated the ability to critically and systematically integrate knowledge and analyse, assess and deal with complex phenomena, issues and situations even with limited information
- demonstrated the ability to identify and formulate issues critically, autonomously and creatively as well as to plan and, using appropriate methods, undertake advanced tasks within predetermined time frames and so contribute to the formation of knowledge as well as the ability to evaluate this work
- demonstrated the ability in speech and writing both nationally and internationally to report clearly and discuss his or her conclusions and the knowledge and arguments on which they are based in dialogue with different audiences, and
- demonstrated the skills required for participation in research and development work or autonomous employment in some other qualified capacity.

Judgement and approach

For a Master of Arts/Science (120 credits) the student shall have:

- demonstrated the ability to make assessments in the main field of study informed by relevant disciplinary, social and ethical issues and also to demonstrate awareness of ethical aspects of research and development work
- demonstrated insight into the possibilities and limitations of research, its role in society and the responsibility of the individual for how it is used, and
- demonstrated the ability to identify the personal need for further knowledge and take responsibility for his or her ongoing learning.

OUTCOMES FOR MASTER BY RESEARCH IN MEDIA AND COMMUNICATION SCIENCE

After completion of the programme the student should be able to:

Knowledge and understanding

- theoretically assess different theoretical dimensions of media- and communication science.

Competence and skills

- use relevant theory and research methods within the chosen field.
- define, investigate and analyse academically relevant theories in written and spoken words.
- independently plan and conduct a scientific research project within the chosen field.

Judgement and approach

- identify and critically assess different paradigms of scientific theory.
- perform critical and analytical thinking.

Content

Media and Communication Science MA, Media and Communication Theories and Research Approaches, 15 credits

Media and Communication Science MA, Scientific Methods, 15 credits

Media and Communication Science MA, Scientific Writing, 7.5 credits

Media and Communication Science MA, Philosophy of Science, 2.5 credits

Media and Communication Science MA, Scientific Project I, 15 credits

Media and Communication Science MA, Scientific Project II, 15 credits

Media and Communication Science MA, Scientific Project III, 20 credits

Media and Communication Science MA, Degree Project, 30 credits

Entry requirements

English course 6/English course B from Swedish Upper Secondary School (Gymnasium) or the equivalent.

Bachelor of Arts/Science or equivalent (at least 180 credits/180 ECTS), with at least 60 credits (60 ECTS) in Media and Communication Science, Journalism, Political Science or Business Administration.

Eligibility for the research project is assessed on the basis of the applicant's bachelor's degree project/thesis, a letter of motivation, and, where appropriate, through other documented experience relevant to the subject.

Description of programme

The degree programme runs full-time for two years and is carried out for the most part in the form of research work in a research group.

Selection rules and procedures

Alternative selection, see heading "Other information".

Programme with restricted admissions

Special prerequisites for courses are given in the respective course specifications.

Teaching and examination

Teaching is full-time in the form of research work in a research group.

The language of instruction is English.

The teaching and examination procedures are stated in the syllabus of each course.

Title of qualification

Degree of Master of Arts/Science (120 credits)

Masterexamen med huvudområdet medie- och kommunikationsvetenskap, translated into Master of Arts (120 credits) with a major in Media and Communication Science.

Other information

During the programme course names, contents, credit units and schedules may change.

CRITERIA FOR ALTERNATIVE SELECTION

- The applicant's qualifications in relation to the chosen subject
- Letter of motivation
- Scientific quality of Bachelor's thesis, or other documented scientific work relevant to the planned field of research
- The applicant's analytical ability and English writing skills
