2nd exam on the course P0S89G, the Perception module of the course, 24/11 2018, Mid Sweden University.

READ THIS CAREFULLY! Each answer should not be more than ten sentences or half a page long. That is, if ten sentences is shorter than half a page, the answer will be ten sentences. If the is less than ten sentences on half a page it ends at half a page. Correction of the answer stops after what comes first ten sentences or half a page.

The questions can be answered sequentially with no need to change to a new sheet of paper for each answer.

For a pass grade, you need at least half the points.

Kind regards

Anders
