

Drakstadens parking – Mid Sweden University Sundsvall

On behalf of the property owner, Drakstaden Parking has the ambition to start a mobile paying system (SMSPark) at the university in Sundsvall. The system is modern and works regardless of whether the person parking has a smartphone or not or a prepaid or contract-based mobile phone, as the payment is done afterwards and based on your Swedish personal ID number. You can pay your parking fee via sms or via the mobile app. There are no extra costs in addition to the parking fee per hour*, which means that the parking fee is SEK 5 per hour, and you will be charged SEK 5 per parked hour. At the end of the month, you will receive an invoice listing the hours or days you have parked during that month.

**According to Swedish law, the first time, a paper invoice will be sent to you by mail. This invoice will amount to SEK 25. After that, at no extra charge apart from the parking fee, you can choose between sms invoice, e-bill or card payment.*

This is how it works:

To pay your parking fee via sms, send an sms containing the zone code*, license number and Swedish personal ID number to **0700-40 40 40**. *The zone code is a number you will find on our stickers and signs. They identify the parking place.

You will receive a reply sms immediately confirming that the parking fee has been paid. Please note that that parking is only valid when you have received the confirmation sms. When you want to leave the parking place, just send another sms and avsluta. You will then receive a reply sms containing information about the total fee, and more. To make sure you do not forget that you have started a parking period, we will regularly send you reminder sms messages. At the end of the month, you will receive a list of your parking occasions and an invoice. Flexible, smart and easy.

Fee

The parking fee is SEK 5 per hour and SEK 25 per 24 hours. You will have the opportunity to buy a monthly ticket for SEK 400. Longer period tickets can be invoiced by the parking company.
