Application for deferment

You can apply for deferment due to circumstances you may not be able to influence. The circumstances must generally have occurred after you signed up for your education. Deferment from your studies may not exceed 18 months unless there are exceptional reasons for prolongation of the deferment requested.

Special grounds for deferment can be social, medical or other circumstances, e.g. care of children, military service or civil defence service, missions for the student union or postponed leave according to the law about employers right to leave for education (lagen om arbetstagares rätt till ledighet för utbildning).

The reasons you claim must be motivated and proof of this must be enclosed with this application (e.g. doctor's report).
