

# Welcome to an open lecture

# Radiation - Are you safe?

Reza Salim, PhD researcher at STC Research Centre and the Deutsches Elektronen-Synchrotron (DESY)

Radioactive materials are all around us, natural or man-made. You will find radioactive materials in the surface of the earth, in buildings, in the food that we eat and in the air we breathe. We are constantly being showered with great amount of radiation from space and in addition to this, we are also exposed to man-made radiation such as X-rays, security controls and nuclear power plants. Reza Salim is a researcher within the field of radiation and he will tell you more about the radiation around us, how it affects us and how to protect yourself.

**Date:** Tuesday February 2<sup>nd</sup>, 2016  
**Time:** 10:15-11:15  
**Place:** M108

**The seminar will be held in English - Welcome!**
